

FAMU-FSU TIMBER STRONG DESIGN BUILD

2022 1st Place Team

BECOME PART OF OUR WINNING TEAM!!

\$ SPONSORSHIP

Your generous contribution will help us pay for materials, tools, and cover the costs of printing our visual aid and structural drawings!

🔪 DONATE MATERIALS

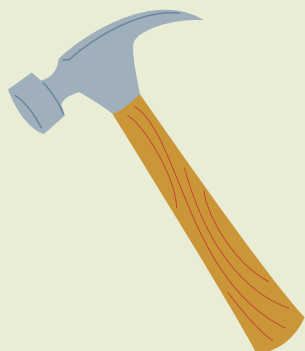

Sustainability is a top priority for this competition! To meet these goals we are asking for any donations of 2x4's, 2x6's and sheathing that may, otherwise go to waste.

2023 1st Place Team

2024 1st Place Team

Let's Put Our 2024
Timber Strong Team's
Picture Here!!!

YOUR SUPPORT WILL HAVE A LASTING IMPACT

The Timber Strong competition has provided our students with the opportunity to apply their classroom knowledge through creation of a useful design and tangible product. Through programs like AutoCAD and Revit, student participants are able to practice civil engineering at a competitive level by producing quality structural plans and a BIM Model. Our team of rising engineers are motivated and enthusiastic about the hands on experience we get with a project of this level of detail. Our goal is to go far beyond winning, as we hope to create the next generation of successful engineers!

Sponsors will get their company name and logo on our project report, presentation, t-shirts, and visual aid that will be displayed at our construction site. Following the event, we will provide you with pictures and a detailed recap of how your contribution aided in our success.
